

Consortium *for* Verification Technology

Fellowship Program

Over the next five years, the **Consortium for Verification Technology (CVT)** will educate more than 60 Bachelors, Masters, and Ph. D. students with the talent, training, and commitment to meet the current and emerging challenges in the fields of nuclear nonproliferation, safeguards, and arms control treaty verification. CVT Fellows at the Ph. D. level will participate in at least one national laboratory internship in the course of his or her fellowship. The available mentors and projects at the national laboratories are listed on our website: cvt.engin.umich.edu
